

WT MICROELECTRONICS

Biodiversity and Zero Deforestation Commitment

Effective December 2024; last updated March 2025

Our Purpose

WT MICROELECTRONICS Group fully recognize the importance of biodiversity and forest conservation to ecology, the environment, climate, and cultural values. To demonstrate our commitment to sustainable corporate development, we have established **WT MICROELECTRONICS Biodiversity and Zero Deforestation Commitment** based on the principles of the *UN Convention on Biological Diversity*. This commitment applies to all operational activities of WT MICROELECTRONICS Group, supporting and implementing the *UN Convention on Biological Diversity* and the Sustainable Development Goals (SDGs). We actively engage with employees and all stakeholders of the Group to collectively address environmental and ecological challenges.

Our Commitments and Implementation Approach

- Regularly evaluate and review potential environmental risks caused by operational activities.
- Work towards achieving net zero emissions by implementing resource efficiency measures, waste reduction, and using renewable energy to mitigate biodiversity impacts caused by climate change and resource depletion.
- Ensure the operations and supply chain of the Group comply with international, national, and local biodiversity laws, avoiding harm to endangered and protected species.
- Support biodiversity conservation activities or advocacy and respect legally protected biodiversity areas, avoiding business operations in critical biodiversity zones.
- Commit to ensuring that business activities do not contribute to deforestation and actively explore the feasibility of supporting natural carbon sinks.
- Uphold the principle of informed sourcing by refraining from procuring goods from suppliers that may harm biodiversity or lead to forest loss.
- Encourage all stakeholders and supply chain partners to participate in this commitment, jointly supporting forest conservation and biodiversity protection.
- Organize environmental conservation activities to encourage active participation from employees and stakeholders of the Group, fostering awareness and action in protecting forests and biodiversity.

Signed

Am Cheng
